The Mekane Yesus-STEM Academy... an instructional support program in; Mathematics, English, Chemistry, Biology, and Physics for grades 9 – 11, that began in October 2017 concluded in April 2018 with great success! Since this was our first year, to help us in planning for next academic year, students were asked to give feedback about the program and their experiences.

According to the final report, students were very happy with: the supplemental instruction received, affordable price 100 birr (\$4 USD) /month, learning environment, and encouragements received from faculty and staff. The report also indicated that these students plan to continue with us next year! We also learned that we served students attending in three out of the eight Bishoftu area public high schools!

Please pray for -

- > Accreditation Process for the Bishoftu campus
- > End of the Semester Activities
- > Reliable vehicle transportation between Addis Ababa and Bishoftu
